KNYDER

The Kerr school closed Friday with a football game in the afternoon between the school boys and Arden. The Arden team was composed of the following players: John Evans, Will Kell, Lester Williams, Percy Smith, Gerald and Percy Hughes, Arthur and Cliff Maher, Lesley, J. Gregory and Gus Lashley. The team from W. P. Taylor, Earl W. Taylor, Clyde Hughes, Mack Thompson, Fred Cook, James N. Smith, Guy Thompson, Arthur A. Smith, Paul Thompson, Charles Hughes and Forrest Kerr won.

At a school assembly Monday morning, W. P. Taylor was chosen the Kerr champion. Miss Gladys Hill, of his class, was elected for Kerr champion. The married Miss

THE AUGUSTA COUNTY

By Frederick J. Hunk, Clerk.

For a number of years records have been accumulating the use of a series of papers known as the Chalking Machine, which will increase they are coming out by Judge Lynne Chalkley, Staunton, Virginia, of the court house records of August 1901 to a period when the history of several states was held in that country. The publication of these records, which will probably be equalled with the recent year, is regarded by many one of the most important practical achievements of the age. There is no such general publication in existence in Europe or America of such information valuable as this.

THE TIMES IS \$1.00 A YEAR

WE want to state a few reasonable reasons why you should sell your wool and lambs to the MacIntosh Meat Company. A statement that cannot be backed by reasons is like a ship without motive power. It will not go very far these practical days.

We say that we are in better position to handle your wool and lambs than any other parties in the county. This firm will make no deal with you that we will not fulfill to the dot. We are proud of our record and will maintain it in every respect. Talk it over with your neighbors they will give you additional reasons why you should come in and talk it over with us.

Respectfully,

There are a number of reasons why you should consider using a professional service to help you with your business. First, they can help you to identify the areas of your business that need the most attention. Second, they can help you to develop a plan of action to address these areas. Third, they can help you to implement this plan and monitor its progress. Finally, they can help you to evaluate the results of your efforts and make any necessary adjustments.

• **For the first time**, a research team has shown that the **immune system** can be trained to fight off **chronic hepatitis B** infection. The study, published in *Journal of Hepatology*, found that a **new vaccine** can help the body's immune system recognize and destroy the **virus** that causes the disease. This is a significant breakthrough, as chronic hepatitis B is a leading cause of liver disease and cancer. The researchers, led by Dr. **Michael**, used a **novel approach** to develop the vaccine, which targets the **surface antigen** of the virus. They found that the vaccine was **effective** in **monkeys**, and they are now testing it in **humans**. The study also showed that the vaccine can help the immune system **clear the virus** from the liver, which is a **major goal** in the treatment of chronic hepatitis B. This finding is **promising** and could lead to a **new treatment** for this **serious disease**.

The three young sons of John H. Doyle, of Clover (fresh recently had a rather exciting experience with a wild cat. Their father had been trapping for cat and the boys would not let the trap the morning they found an unusual wild cat caught by one leg instead of waiting for help and would for the old family standard dog and cat about to eat the cat themselves. The old dog went valiantly to the rescue and was almost up before the cat could get away, and the boys' cat and mother made little or no noise on the wild cat other than to make the rescue cat efforts to escape and finally to put the cat out of the trap. Had the boys gotten away, the cat would have been a fine specimen.
